

CNC Programmer

QP Code: CSC/Q0401 (L4)

Module 1: Workshop Safety & Introduction To CNC Technology

104 hrs

- Introduction to connected Lab story
- Basic Health and Safety Practices at the Workplace
- Fire Safety & Emergencies, Rescue and first-aid procedures
- Introduction to CNC technology

Module 2: Types Of CNC Machine And Control Units & Program Input

96 hrs

- Machine Tools and Instruments
- CNC controlling and program simulation through kit and software
- CNC Programming in Auto and Manual mode

Module 3: CNC Lathe And Milling Programming

200 hrs

- CNC Machining-Milling
- CNC Machining-Lathe
- Modern CNC Systems
